

Actions to stop doing:

Some of the group feels that they need to stop doing so much on their own, and instead look for support from the rest of the team. Some members need to ensure that all user stories are completed before moving on to additional coding. Also, we need to stop getting stuck on small details, especially around features in Fantom that are not yet implemented.

Actions to start doing:

We need to start using sticky notes for our scrum board. In general, it needs to be more readable. We also need to better use the scrum board and burnup chart as points of reference to keep each other on track. Finally, we would like to participate in more team building activities.

Actions to keep doing:

We have been doing much better at using branches, something we were not so good at in Sprint 1. Our merges have been extremely well organized: we have had almost no conflicts between each other's work. Also, we have been good at keeping out Scrum meetings under 15 minutes. Our organization with coding as a group has significantly improved such that we are working together much more efficiently. This is largely due to our increased use of the scrum room. Lastly, our goals for this sprint, while greater than the last, were very realistic and achievable. Everyone is doing much better with the language.

Work completed:

- (5 Pts) As a content manager, I want to be able to edit the settings on my website.
- (13 Pts) As a viewer, I want to be able to navigate the website from a central location.
- (8 Pts) As a user of the system, I must be able to read the user manual of the FantomCMS.
- (1 Pts) As a developer, I want to be able to control the flow of state.
- (8 Pts) As a content manager, I want to be able to control the colors of the website.
- (3 Pts) As a developer, I want to ensure my changes maintain functionality.
- (2 Pts) As a developer, I want to maintain an organized structure between my fellow developers.

Work not completed:

- (8 Pts) As a content manager, I want to be able to control the users on my website.
- (8 Pts) As a developer, I want my web server to be secure.
- (21 Pts) As a content manager, I want to be able to deliver static pages.

Work completion rate:

- **Total User Stories Completed:** 7 / 10
- **Total Estimated Ideal Work Hours Completed:** 51 / 68
- **Total Number of Days in this Sprint:** 14 days
- **User Stories Per Day:** 0.5
- **Ideal Work Hours Per Day:** 3.643
